

“Above & Beyond” USGBC-Missouri Gateway Volunteer Recognition – September

USGBC-Missouri Gateway is committed to recognizing volunteers who have contributed significantly to the Chapter, devoting time and talents “above and beyond” on a particular project or program! This month, we are happy to recognize **Jan Niehaus** Communication by Design and USGBC-Missouri Gateway Marketing Committee Chair.

Jan Niehaus – a long time member of the Chapter and the Marketing Committee – took over the reigns of the Marketing Committee as chair at the beginning 2010 and hit the ground running. She immediately built the committee, nearly doubling it’s size and it’s outputs. Most recently Jan and her committee have been responsible for creating this very feature of the website (Above & Beyond); completing several [LEED Project Profiles](#) and working on many, many more; vetting new Chapter names; hatching the Chapter’s efforts to celebrate our

USGBC STL ECORIDE at 9:00 am

10-Year Anniversary and choosing the Anniversary's theme from contest submissions (*10 Green Years & Still Building*). It's no surprise that the committee chose a theme submitted by Jan since the Chapter benefits from her communications savvy on a regular basis! In addition to her role as Marketing Committee Chair, Jan is serving on the 10-Year Anniversary Steering Committee, taking a strong lead in our efforts to document the impacts of green building over the past 10 years.

Thanks, Jan, for your steadfast commitment to communicating the importance of green building and the Chapter!
